## Introduction

This document describes an upgrade load file which allows an ATMs to communicate with hosts which use SecureTrust or Trustwave SSL certificates.

## Platforms Affected

This release is for the following families:

- Any X1, X2, X3, X4

## Hardware Support

No specific hardware is required for this software release. It can be loaded on any CE system.

## Software Requirements

The ATM must be running application version 2.4.0 or greater.

The following load files are included with this release:

- xt20cast1.0.0.tlf - XScale
- xt30cast1.0.0.tfv – X2/Traverse/ARGO

The following are released to include new certificate in 2024:

- t-sw-cacc-1.0.1.tlf – XScale
- t-sw-cacc-1.0.1.tfv – X2 CE5
- t-sw-cacc-1.0.1.tr6 – X2 CE6
- t-sw-cacc-1.0.1.tr7 – X3
- t-sw-cacc-1.0.1.tr8 – X4

Important note for installation of these load file(s): When installing any load file, your ATM restarts itself as part of the installation process. When installing these particular load files for SSL certificate authorities, after the automatic restart you must then manually perform a second restart via management functions, either [5] System Parameters / [5] Restart The Terminal, or [5] System Parameters / [4] Shut Down The Terminal.

## External Dependencies

## Changes

### ***SecureTrust and Trustwave Certificates***

These load files enable SecureTrust and Trustwave certificates to be approved by the ATM in order to process transactions via SSL.

### ***Viking Cloud Certificate***

Version 1.0.1 of the certificate update includes support for the following:

```
-----
Subject CN:      Viking Cloud Organization Validation CA Level 1
Issuer  CN:      SecureTrust CA
Not Before:      6/9/2022 11:15:00
Not After:       12/15/2029 17:15:00
Serial Number:   076B9C83A4ACA8AF581CBEF232CAD142A73519
Thumbprint:      716542EB4105C8EE32DAD54400E9280035BE9FE7
-----
```

## Revision History

Date	Version	Description of Change
May 24, 2013	1.0	Initial
April 11, 2024	1.1	Added Viking Cloud certificate
